TO WHOM IT MAY CONCERN

**RE: PRONET TECHNOLOGY**

Pronet Technology has been looking after the IT requirements of JC Steele and Sons Australia LLC since June 1995. Over the past three years I have found their service to be of a very high standard. They provide a prompt service which is vital in the area of office IT assistance with staff that are knowledgeable and helpful. The service centre is well staffed with immediate assistance always available when needed. The advice given on all areas of IT service has been very valuable with information and guidance provided on many aspects including PC/desktop purchases, server replacement, backup-up requirements, virus protection as well as general day to day system assistance. I would have no hesitation in recommending Pronet Technology to any small to medium company for their IT needs.
