Pronet have been providing Paramount Airconditioning with excellent service for over 5 years, their expertise and advise has ranged from the best suitable servers for our business, advise on various accounting packages and any other hardware advise we should require.

Being able to obtain equipment at a competitive price, have it delivered and installed onto our network by Pronet, which maintain the network for us has saved a great deal of time and money. We receive solutions and results that work for our company.

Their technical team is automatically informed of any issues that arise on our servers, this allows us to diagnose and rectify the issue immediately before they become a major concern.

They also perform thorough monthly server maintenance, at a time that suites our business. Knowing that our servers are being professionally maintained and monitored gives us peace of mind. We have found the service they provide to be reasonably priced.

They have been terrific support for us and have found that the business has had very few interruptions in the IT area.
