To Whom It May Concern:

Re: Pronet Technology

I have been based in this office for over 5 years and Pronet have been acting as our IT consultant, long before I started.

Pronet have helped and advised us in all areas of IT. Purchasing and setting up of computers and software suitable for our office and needs, organising e-mail addresses and internet providers, making sure our backup system is working and up to date, maintaining and monitoring our computers every month, are just a few areas we have used Pronets expertise.

And to take the stress out of, 'My computer is not working, what should it do!', we know Pronet are only a phone call away to help with any support or service we need.

I'm impressed with Pronets professionalism and their 'can do' attitude and they are always quick and efficient to solve our IT needs, whether they are big or small.

I would recommend Pronet Technology to anyone looking for an IT consultant.

Regards,
Simply Real Estate
